ASNT NDT Level III:  AE  ET  MT  PT  RT  UT  VT  IR  LT  NR  VA  ML

Please equalize my certifications.

Equalization permits you to renew any (or all) of your ASNT NDT Level III certificates when your earliest certificate expires. You pay one \$250 Application Fee and one Method Fee per Method. ## Application Due Date

ASNT certificates expire on the last day of the month listed on the certificate.

**Renewal applications must be postmarked no earlier than 6 months and no later than 2 months prior to the expiration date shown for each method.** If equalizing methods with different expiration dates, the application must be postmarked 6 to 2 months prior to the expiration date of the earliest expiring method.

Example 1: An application to renew MT and PT Level III certifications both expiring in July 2017 must be postmarked between January 31, 2017 and May 31, 2017, which are 6 and 2 months prior to July 31, 2017, respectively.

Example 2: An application to renew and equalize an RT certification expiring October 2017 and a UT certification expiring February 2018 must be postmarked between April 30, 2017 and August 31, 2017, which are 6 and 2 months prior to the earliest expiration date of October 31, 2017.

***\*\*\*If the application review determines that additional documentation is required, it MUST be received prior to the candidate's expiration date or the certification will expire.\*\*\****

## INFORMATION CONCERNING THE POINT SYSTEM FOR RENEWAL

1. ASNT Level III Refresher Courses, accredited CEU courses, college courses, corporate training department courses and courses of similar quality leading to examinations do qualify for renewal points, provided they contribute to knowledge and growth at or above the qualification level (Level II or III) in the methods in which the applicant is certified, or are NDT-related (e.g. math, physical science, QC, etc.), or cover advanced NDT material.
2. Time spent taking examinations of any kind do **NOT** qualify for renewal points.
3. Acting as a Session Chairman at a Society meeting, or as a Section Officer, National Officer, Council, or Committee Chairman does **NOT** qualify for points; these are not technical functions. The only exception is for participation in technical society meetings whose primary function was to accomplish a significant technical (not administrative) project. Such projects must meet the requirements for Activity H in Table 1.
4. Test procedures, QC manuals, etc. prepared for employers do not qualify for points; they are considered as part of an applicant's occupational or work experience.
5. To earn points for attendance at technical sessions, documentation of attendance at the actual technical presentations must be submitted. Proving general attendance at the conference is not sufficient. At all ASNT Conferences, forms for documenting attendance are provided at each technical session; have them signed by the session chairperson and submit copies of them with the application for recertification.
6. Reports prepared for employers do not qualify for points unless and until they are given as a technical presentation or published per Activities C or F in Table 1.
7. Passing mathematics or physical science courses in connection with a college degree program qualifies for points, but it is the applicant's responsibility to document the contact hours in order to receive the point credit.
8. Certificates of completion for courses must show either contact hours or **CEUs**. It is up to the applicant to supply suitable documentation showing such hours or **CEUs**. One CEU equals 10 contact hours and is equivalent to 2.5 ASNT recertification points.
9. Providing the name of a person who can verify points is not satisfactory documentation. It is the applicant's responsibility to provide hard copy, i.e., documentation with the attesting person's signature.
10. To count for points, papers must be published in a technical society journal or official society publication. Publications which are not generally available to the public, such as company or governmental meetings or reports, are not acceptable. Similarly, talks given at meetings not open to the public do not earn points.
11. In general, the type of point documentation is the same as that needed to satisfy a strict QA/QC auditor. The ASNT Certification Program records are audited annually and must show strict compliance with the above rules and procedures, so full compliance is required of **all** applicants, including proper documentation. In case of doubt about the suitability of documentation or whether points should be awarded, the final decision rests with the Certification Management Council.

## DEFINITIONS

**Committee Projects:** Specific identifiable official activities of the national technical societies such as round-robin or individual studies, preparation of guidelines, appendices, specifications, recommended practices, codes or standards, etc., may qualify. Documentation may include memo or letter reports, drafts of committee output documents, or major written comments on documents. Verbal comments, attendance at meetings, or return ballots without major comments do not qualify.

**External NDT Audit:** An NDT audit of a facility other than that of the auditor's place of employment such as NDT vendor or supplier audits.

**Full Article:** A full article is one of 1000 words or more at the time of publication.

**Membership:** Membership will be calculated based on the number of months a certificate holder has been a member in the current 5-year certification cycle. For each month of membership, 1/12th of a point (0.083 points) may be claimed.

**National Meetings:** Meetings, conferences, symposia, seminars, panels, etc., organized or sponsored by a national technical society or societies and advertised nationally. Regional conferences may qualify if they meet the above criteria. Trade shows and trade association meetings do not qualify. Closed meetings, i.e., those with attendance or notification restricted to certain groups, do not qualify. Foreign or international meetings qualify if the sponsor(s) are national or international and the attendance is not restricted.

**Patents:** Patents shall be those issued by the U.S. Patent Office or equivalent non-US governmental agency.

**Publication Development and Review:** Authors and reviewers may earn points for publication activities as shown below provided the contribution is published.

Publication type	Activity	Points

	Partial publication review	1
	Contribute single chapter	1

Publication type	Activity	Points
<b>Materials Evaluation</b>	Contribute full article (1000+ words)	3
	Contribute short article or Tech Tip	1
	Article review	1
<b>The NDT Technician</b>	Contribute full article (1000+ words)	3
	Contribute Working Smarter Tip	1
	Contribute short article or Tech Tip	1
	Article review	1

**Technical Society:** A not-for-profit society representing a segment of industry in an NDT-related field or representing an industry that is an NDT user.

**Technical Society Publications:** The publications of national technical societies qualify. Foreign or international technical journals also qualify.

**Other Technical Certifications:** Currently valid non-ASNT NDT-related certifications such as the AWS CWI or SCWI; API 510, 570 & 653; NACE and ASQ CQA can be counted for one point each. If a certification body issues a separate certificate for *each* individual NDT test method, then only one certificate from that certification body may be counted.

## POINTS DOCUMENTATION

Below are examples of **typical** documentation for each of the points categories. Similar documentation that is submitted will be considered on an individual basis.

Item	Typical Documentation
<b>A (a)</b>	Training course outlines showing the NDT subject and number of classroom/contact hours and a copy of an IACET CEU certificate with your signature as the instructor. For academic courses, a copy of the course description (from a school Course Catalog, etc) showing the subject, hours, and you as the instructor.
<b>A (b)</b>	Training course outlines showing the NDT subject and number of training hours. A copy of a student's training documentation that would be placed in their company personnel certification file is satisfactory as long as the hours, subject and your name as instructor is shown.
<b>B</b>	Evidence of completion such as transcripts, certificates, diplomas, grades, etc. which denote contact hours or CEUs issued, the course subject and your participation.
<b>C</b>	Meeting notices, published programs, or correspondence on company or society letterhead, which identify the meeting, presentation title, presenter/author's name, and date.
<b>D</b>	Registration forms, trip reports, certificates of attendance, correspondence, or other positive evidence of attendance. This must denote activity title, date, location, and content.
<b>E</b>	The first page of a published paper is adequate, provided the title, the author(s) name(s), and the name and date of the publication appear.
<b>F</b>	A copy of the page showing the published technical tip with your name on it as the author or a copy of an e-mail from the editor stating that you did submit a tip that was used.
<b>G</b>	A copy of a letter, fax or e-mail from the appropriate ASNT Editor attesting that you have performed the development work or technical review being claimed. *** NOTE: <b>You</b> must request such documentation; it will <b>not</b> be generated automatically. ***
<b>H</b>	Committee meeting minutes or memoranda, correspondence, letter reports, or other evidence that identifies your role in completing committee projects is acceptable.
<b>I</b>	Copies of currently valid NDT-related certifications. Note: If a certification body issues individual certificates for each NDT test method, only one such certificate will be accepted from that cert body for each Level of qualification. Certificates issued by the same cert body but for different <b>applications</b> (such as API 653, 510 or 570 certificates) would each count as a separate certification.
<b>J</b>	Copies of past ASNT membership cards, a copy of receipts for membership payment within the current certification cycle or an e-mail from ASNT staff documenting the number of years will be accepted.
<b>K</b>	A copy of the agreement between ASNT and the Monitor (or Assistant Monitor) is acceptable.
<b>L</b>	A letter from a responsible agent of the 3rd party that was audited attesting that the applicant performed an NDT audit is acceptable. (Audit materials are by nature confidential and are not wanted and will NOT be accepted).
<b>M</b>	A copy of a new or renewed patent for an NDT product is acceptable provided it was granted or renewed within the current 5-year certification period.
